

Information letter about the event
International Demographic Forum “Demography and Global Challenges”
(May 23-25, 2024, Voronezh)

Dear Colleagues!

We invite you to take part in the III International Demographic Forum “Demography and Global Challenges”, which will take place on May 23-25, 2024 at the Voronezh State Forestry University named after G.F. Morozov with the participation of the Government of the Voronezh Region, the Ministry of Labor and Employment of the Voronezh Region

The purpose of the forum is development of regional and international scientific cooperation, professional discussion and systematization of scientific and practical experience on issues of demographic development, migration processes, reproductive health, family and family values, education, consolidation of the efforts of the scientific and professional community, representatives of public organizations and government bodies in the field of demographic policies, as well as exchange of experience.

Scientists, teachers, doctoral students, graduate students, undergraduates, university students, heads of government bodies, heads and employees of educational organizations, centers of psychological, pedagogical, medical and social assistance, representatives of government bodies in the field of demography, healthcare, social policy are invited to participate in the Forum and education.

The articles of the participants will be published in a collection of scientific papers by the beginning of the Forum. All published articles will be indexed article by article in the RSCI. Publishing materials is free.

Format: face-to-face and full-time-remote.

The Forum's work is planned in the following main areas:

1. Economic-demographic, geographical, political and sociological studies of demographic changes in Russia and the global world.
2. Metamorphoses of demographic development of Central Russia: trends, problems, possible solutions.
3. Medical and demographic processes and reproductive health of the population in the context of a demographic perspective.
4. Legal, psychological and social research into the problems of supporting families and family values.
5. Mapping and GIS technologies in the analysis of modern geodemographic processes.
6. Family and youth in modern educational trajectories.
7. Demography through the eyes of young people.

The Forum will include:

- 1.** *Round table “Large family as the basis for positive demography in Russia (and all humanity)”*
- 2.** *Competition of reports of young scientists.*
